SADOWSKY STRINGS

The Best You Ever Played™

FOR MORE THAN 30 YEARS, I've been building guitars and basses for many of the world's finest players. And I've put everything I know and love into each one. So when I created my own strings, I insisted that they reflect the same level of quality and passion I have always brought to my instruments. From the color and brightness of the wrap wire to the feel, tension and tone, no detail has escaped my attention. At Sadowsky Guitars, we use our strings every day. It is our hands-on use of our own strings that give us a level of quality control that few can approach. I am confident that once you have tried Sadowsky Strings, you will discover they are simply "the best you ever played".
