

## SADOWSKY RECOMMENDED SETUP SPECIFICATIONS

### Pickup height

Hold string down at last fret.

Measure from bottom of string to top of pole piece

### Bridge Pickup

2/32" (1.59mm) Treble Side

3/32" (2.38mm) Bass Side

### Neck Pickup

3/32" (2.38mm) Treble Side

4/32" (3.17mm) Bass Side

### For P-J basses:

Set the bridge pickup to the suggested height. Then adjust the P until you are happy with the balance between the two. The P pickup will always have more output than the J pickup.

### Bass Action Specs

Hold string down at first fret

Measure from bottom of string to top of 12th fret

#### LOW:

G 2/32" (1.59mm)

B 3/32" (2.38mm)

#### MED:

G 5/64" (1.98mm)

B 7/64" (2.78mm)

#### HIGH:

G 3/32" (2.38mm)

B 4/32" (3.17mm)

### Guitars (Archtops and Solidbody)

High E string: 3/64" - 2/32"

Low E string: 2/32" - 5/64"

If you have a hard attack, you might want to increase the highest numbers by 1/64".
